ABSINA MOBILE WALLBOX TYPE 2

MODE 2 | 6-16A | MAX. 11KW | 400V

The mobile charger is used to charge electric and hybrid vehicles at 400V CEE sockets. The mobile charging station has the same output as a permanently installed wallbox max. 11kW / 16A. The cable is equipped with a type 2 plug in accordance with the EU standard. The numerous protective functions ensure charging at the highest level of safety.

PRODUCT HIGHLIGHTS

- Adjustable charging power 6A / 8A / 10A / 13A / 16A - max. 11kW, 1- and 3-phase, charging control box and protection class IP67 for mobile charging at 400V CEE sockets.
- Safe charging thanks to integrated residual current circuit breaker TypeA+DC 6mA. Compatible with all electric cars (BEV) & plug-in hybrids (PHEV) with type 2 or CCS2 plug in accordance with EU standard IEC 62196-2.
- Type 2 plugs with impact-resistant housing, drive-over protection up to 2 tons and 10,000 mating cycles enable daily use for over 10 years.
- Convenient charging thanks to the 6.4 meter cable length and robust multifunctional Velcro strap with hanging loop for storing or hanging up the charging cable.
- Robust hard-shell case made from recycled plastic with a snap hook on the side and space for up to two charging cables and accessories.

TECHNICAL INFORMATION

Charging capacity:	4.2-5.5-6.9-9.0-11kW	Fire protection class:	UL94V0
Output current:	6-8-10-13-16A	Type 2 plug cycles:	>10.000
Tension:	400V	Compatibility:	Typ2, CSS2
Number of phases:	3-phase	Security:	Impact and drive-over safe
Cable length:	6.4m	Standby:	0.5W
Operating temperature:	-30°C ... +60°C		
Protection class control box:	IP67		

PRODUCT DATA

Product name:	Charging cable type 2 CEE adjustable 11kW
Part number:	301020
Tariff number:	85371098
Scope of delivery:	Charging cable, protective bag, storage strap
Packing type:	Carton

VOLUMETRIC DATA

Product	
Dimensions:	390x390x135mm
Weight:	3790g
Product + packaging	
Dimensions:	430x400x150mm
Weight:	4710g
EAN:	4260368689965
Packaging unit	
Quantity:	4
Dimensions:	610x430x415mm
Weight:	20800g
EAN:	4068697000099

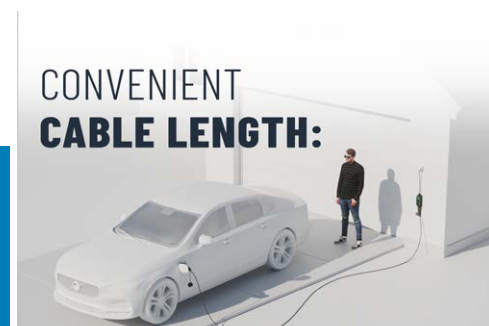

SAVE UP TO 500€

No installation by an electrician required.
Simply plug in and charge.

CEE16: PLUG & PLAY

Compatible with any European electric vehicle.

CONVENIENT CABLE LENGTH:

5,8m
0,6m
